

# TMRS Initiatives

## MY TMRS is Ready to Use!

Now, TMRS members and retirees have 24-hour access to information about their TMRS accounts. MyTMRS<sup>TM</sup> is a new on-line service, available through the TMRS website (<http://www.TMRS.com>), that provides current account data for your active and retired employees.

### Active members can:

- View account activity for the current year, including deposits made and credit earned;
- See all account activity for the past four years of service; and
- Check all service credit history from any TMRS city.

*Note:* My TMRS will not generate retirement annuity estimates.

### Retirees and other TMRS payees can:

- See the amount of benefit payments received in the current year;
- See the amount of federal income tax withheld from retirement payments;  
and
- For persons receiving a term benefit, see the date payments will stop.

In addition, any active member who has requested a refund of TMRS member deposits will be able to track the refund request, and see when it will be paid.
